DESCRIPTION

The CENDINOX street cigarette ash urn looks like a post or bollard in 304L stainless steel with flat top, with a diameter of 140 mm and a height of 1100 mm.

The urn top is removable (standard ▲ 11 mm lock and key) to reach the aluminium receptacle where up to 1,000 cigarette ends can be collected.

Ground fixation comes with the body of the cigarette ash urn.

Each cigarette ash urn is packed individually (protective film + cardboard).

It is also available for wall mount, with a lesser capacity. Other specifications are identical to the post version.

SURFACE FINISH

Grade 304L stainless steel: pickled / passivated brushed finish.

Art. Code for Post	Art. Code for Wall-mount
CENDINOX	CENDINOXM
